CURRICULUM VITAE y PORTFOLIO

Redama
la red que te ama
Riccardo Giuntoli
CIF. X9770628K
938 962 775

1.0 Información personal.

Riccardo Giuntoli *(a knight of open source)*

Nacido el 31 de marzo de 1981 en Génova, Italia.

A 2022 empresario individual de la comercial Redama, la red que te ama.

- Ingeniero senior de sistemas y redes.
- Apasionado de Unix y seguridad.
- Experto en telecomunicaciones.

2.0 Experiencia Laboral.

01/01/2002 ~ 01/01/2006

Empresario individual: administrador de sistemas.

6shells, Genova (Italy)

PHN: www.6shells.net

LHN: dragon.6shells.net

It was my first work experience. Together with some colleagues of IRCNet we rent a dedicated server in Germany and, using the FreeBSD system operative that in those years was at the fourth release, we build a service provider that gives to his customers access to the IRC and EFNet using BNC proxy. I was doing my first experiences in IT security, in PHP, bash and Perl programming and especially in the implementation of the IPv6 network stack that in those days was known as the 6BONE network where I was identified as RG581-6BONE. I was also doing my first experiences in the field of DDOS mitigation like you can appreciate at the URI:

- <https://lists.freebsd.org/pipermail/freebsd-questions/2005-June/089975.html>

01/01/2004 ~ 01/01/2007

Empresario individual: programador.

Elsag Datamat, Genova (Italy)

Languages: Javascript, AJAX, XHTML, PHP, SQL.

Framework: www.openworkbpm.com

In Elsag, a company that have like 3 thousands employees, i was collaborating a couple of years to implement a workflow ERP using the framework OpenWork

01/01/2004 ~ 01/01/2008

CEO mercantil BSDinformatica S.r.l.

BSDInformatica, Genova (Italy)

PHN: www.bsdainformatica.biz

LHN: thunderbird.bsdainformatica.biz

BSDInformatica was my first company. Moreover than two big jobs that i've done, one in ElSag Datamat that i've explained and the other in the maritime company Gruppo Messina S.p.A., my work was focused over the sell of hosting services using a pair of dedicated remote server configured with FreeBSD and over of the developing of web applications for marketing, selling and utility purposes in the Genoa's market. The program languages that I used to implement were: XHTML, PHP, SQL, AJAX, XML, XML-DOM, JAVASCRIPT, JAVA.

01/01/2008 ~ 01/01/2013

Jefe de departamento técnico mercantil 34Telecom, S.L.

34T, Barcelona (Spain)

PHN: www.34T.com

In 34Telecom i've the great opportunity to understand and study the radio waves networking world. The company was a reseller of the Lobometrics firm and gave technical support to South America and Europe. I was engaged in the department and also I was doing face-to-face courses or by Internet (video conferencing). I arrived to obtain an invitation by the Cuban government to grow the network infrastructure of the state. Other than that I was collaborating with the military forces of Nicaragua to implement a reserved 4GHz backbone. Also I was doing remote configurations of VPN IPsec PTP, PtMP and roadwarrior with Zyxel equipment and hotspot 4IPNet. Lobometrics runs the Mikrotik system operative that I know deeply. I daily used software to prove external radio coverage with GoogleEarth and RadioMobile.

01/01/2009 ~ 01/01/2013

Empresario individual: SAT avanzado redes inalámbricas.

iCode consultors, S.L.U., Barcelona (Spain)

PHN: www.icode.es

In icode Consultors always i was in a great working relationship. I obtained the opportunity to execute many important projects Like:

- 1. Casino de TorreLodones, Madrid: MESH radio network for IoT connection; Layer two using Cisco IOS in Catalyst systems; Layer three using IOS and Catalyst.*
- 2. Fundicio Ductil Benito, VIC BCN: backbone backup using the guifiNET radio network; routing systems using the VRRP protocol implemented over Cisco and Mikrotik RouterOS.*
- 3. Fairmont Rey Juan Carlos I: ESS radio network using Lobometrics equipment for events and fairs with more than one thousand customers; control systems using the protocol SNMP and NetGraph in Linux and Mikrotik RouterOS; WAN redundancy over Mikrotik*

01/01/2012 ~ 01/01/2014

Empresario individual: ISP y WISP.

Control Digital de Procesos, S.L., Pilas (Spain)

PHN: www.codipro.com

*In CODIPRO I've got an optimal working relationship with the CEO Miguel Angel Escalante. Our relationship came from my past job in 34Telecom and as much in MESWIFI as Like an autonomous technician i could go ahead working with them until 2014. With them I could touch especially jobs about **symmetric bandwidth connection using dedicated fiber optic from the operator ONO** as much in industrial buildings as in telecommunication towers from Abertis telecom in all over the country, Canarias islands included. Also we touched on the sale of bandwidth using VDSL and SHDSL technology for companies, virtual telephone exchange VPBX and SIP trunks.*

01/01/2012 ~ 01/01/2016

CEO mercantil MESWIFI S.L.

MESWIFI, S.L., Palau-solita i Plegamans (Spain)

PHN: www.meswifi.com

LHN: gargoile.meswifi.net

*MESWIFI was my own company from 2012 to 2016. I create a WISP (wireless internet service provider) based upon ubiquity, Mikrotik, FreeBSD, Cisco and Ceragon composed by more than **three thousand and five hundred nodes**. The network consisted in a **redundant backbone of radio point-to-point** that in the most important traffic radio link got a **bandwidth of 1gbps**. The coverage of the MESWIFI network was the **province of Barcelona and Tarragona**. Our BGP peering exchange point was the Jazztel datacenter in "zona Franca". Barcelona. There i've got a pair of rack composed by Mikrotik RouterOS routers, Cisco Catalyst switches Layer three and Layer two and some server for IDS, DNS, MAIL and VPBX operations. The servers was mounting FreeBSD, OpenBSD and Debian Linux.*

27/11/2017 ~ unknown

Empresario individual: OSINT (opensource intelligence)

Riccardo Giuntoli, sant Pere de Ribes (Spain)

PHN: www.telecomlobby.com

PHN: <https://github.com/redeltaglio/altBSD> network

LHN: ganesha.telecom.lobby

*OSINT means investigation on site using clever intelligence and open source tools. I'm investigating from 2016 very deeply the **human trade network transmitted by FM broadcast radiators in the Catalan territory for unauthorized development over human guinea pigs. Victims**. This hidden facility also has got many other purposes, no one is good. I develop a **MESH IKEv2 network all over the world for privacy purposes based on OpenBSD**.*

01/03/2020 ~ unknown

Empresario individual: Redama, la red que te ama.

Riccardo Giuntoli, sant Pere de Ribes (Spain)

PHN: www.redama.es | www.redama.cat

LHN: a lot of!

Another WISP. Another Life. Another project. ALL OpenBSD, NetBSD and FreeBSD based. Ubiquiti radio networking. Some OpenWRT.

Product of last mile connectivity, transport, fiber to the home, white brand mobile network access and starling satellite. We sell also solution based over digital radio in ham frequencies.

11/11/2021 ~ unknown

Empresario individual: SAT avanzado salones de juego.

DENSITY NETWORK S.L., Madrid (Spain)

PHN: www.densitynetworks.com

Another great customer and an enormous final client: MDSCasinos of Chile. Advanced networking Cisco and Mikrotik.

4.0 Portfolio clientes en el territorio catalan.

Este listado es una extracción de clientes empresariales que he tenido el orgullo de servir debajo de diferentes nombres comerciales, hoy en día Redama cubre La totalidad del territorio Catalan y en proyecto hay La cobertura de Euskadi.

5.0 SKILLS.

Hablar en un curriculum vitae de mis capacidades en el mundo de la tecnología de la información, la nueva arte, es prácticamente ridículo. Es obvio que he dedicado prácticamente toda mi vida a Unix y al descubrimiento de la red de las redes, aquel proyecto que empezó en 1969 llamado ARPANET después llegó a ser la más compleja y la más fundamental de las redes. Soy prácticamente en totalidad autodidacta aunque tenga varias titulaciones Cisco y haya frecuentado la universidad de informática. He personalmente creado e impartido cursos sobre más de un argumento. Me considero un apasionado de este mundo inmenso que tengo toda intención de ampliar con un profundo conocimiento de la más antigua parte de la explotación del espectro radioeléctrico con fines de telecomunicación. La radio. Radio que ya conozco y que me fascina todos los días. En cuanto a sistemas el profesor Holandés Tanenbaum y su sistema operativo Minix representan por mi conocimiento uno de los puntos más altos. Siempre en 1969 nace también lo que se conoce hoy en día Unix, con sus diferentes versiones, familias y filosofías. Yo pertenezco a lo que salió de los estudios de la Universidad de Berkley, sigo BSD en todas sus versiones. Soy de orígenes italo-americanos hablo tres idiomas prácticamente perfectamente, Italiano, Español e Inglés. Entiendo y escribo Catalan, mientras que quiero estudiar Euskera. Amo la instalación física de infraestructura y el trabajo en altura, tengo todas las titulaciones y los cursos de seguridad.
